1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Karabin et al. (U.S. Patent 5,865,914).

Karabin column 5, line 59 to column 6, line 16 discloses a process including the steps as recited in instant claim 1, performed preferably upon a composition as recited in claim 1 (see Karabin column 5, lines 20-27). With respect to instant claims 4-10, the examples of Karabin are stretched approximately 1%, are preferably unrecrystallized, and, according to Table 3 of Karabin have properties as recited in claim 10. Thus, the Karabin patent is held to fully disclose all aspects of the process as presently claimed.

3. The remainder of the art cited on the enclosed PTO-892 and 1449 forms is of interest. This art is held to be no more relevant to the claimed invention than the art as applied supra.
